

## Final Payment Distributed To Pool Members

\$1,421 a Bushel Paid for 1937 Crop  
—Alberta Members Get \$1,500,000

Cheques for a final payment of 21 cents per bushel on the 1937 wheat crop were put to the meet yesterday for wheat pool members in Manitoba, Saskatchewan, and Alberta. Of the total amount \$5,074,360 distributed, Manitoba's share is \$261,972.53, Saskatchewan pool members received \$2,870,830, and Alberta's members \$1,941,557.

The final payment this year is a net payment on all grades of wheat. It was stated by E. B. Bassano, general manager of the central selling agency, "as all marketing costs and deductions for commercial and elevator reserves were made from the last interim payment. The pool's final price for the past year, No. 1 northern at Fort William was \$1.43 per bushel as compared with \$1.43 paid last year, \$1.45 in 1934, \$1.46 in 1935, and \$1.41 paid by the Alberta pool in 1934.

**First Period Closed**  
"An important chapter" in the history of the wheat pool and the farmers' movement is now closed and a matter of history," stated A. J. McPhail, president of the Saskatchewan Wheat Pool and president of the Central Selling Agency, referring to the final payment of the pool's first contract period.

"During the first period," Mr. McPhail said, "the pool have marketed approximately 750,000,000 bushels of grain, coarse grains included, with a total turnover in money exceeding \$1,100,000,000.

"During that time the three pools have accumulated through elevator deductions and commercial reserves, which belong to the grower, \$9,000,000.

"Looking back over this first period of our journey in the direction of complete control over the handling and sale of our farm products," he said, "we would appear to have made very reasonable progress. As to the future of the pool, prospects were never brighter than appear at present. During the past four years the organization has steadily grown, and in spite of the fact that every contract of the first period in Saskatchewan and Alberta ended on August 23, this year, we are beginning the second series contract period with a larger measure of control than we have had any time since the pool began operations."

**J. DOWNS IN CHARGE OF LEITHBRIDGE POULTRY**  
J. Downes, son of E. Downes, Bassano poultry farmer, has been appointed to the position of head poultryman at the government experimental farm at Leithbridge. The young man, in addition to his training at Leithbridge has had practical experience which will enable him to realize the problems with which farmers are confronted in their poultry work, and how they can best be solved.

## Hussar News

HUSSAR, Oct. 10.—On Thursday, the 18th the Ladies' Aid will meet at the home of Mrs. A. C. Chiffard.

Mr. and Mrs. W. D. Moffat and family moved to Arrowwood, near Charlie Aitell also lost a granary and some wheat by fire last week.

Chris Armstrong was very unfortunate last week in that he lost a bin of wheat through fire, the loss being estimated at about 400 bushels.

On Friday Mr. and Mrs. Moffat and Anna Margaret, Mrs. Burdett, with Marjorie and Edith, and Mrs. Hoff and with Peggy and Josephine, motored to Bassano.

Billy May enrolled as a student of electrical engineering at the school of technology on Oct. 1st.

Leola Westland was home over the week-end visiting her parents, but returned to Calgary to attend school Monday.

Maebel Muller is a student at the Tech this term.

The Girls' Club will meet at the home of Mrs. Dundas on Wednesday evening Oct. 11.

Frank Barva is having his holiday. He left on Saturday for a visit with relatives in Calgary.

Ralph Armstrong was in town Tuesday on an inspection trip.

The Women's Institute will meet at the home of Mrs. Rescor on Tuesday, Oct. 23rd, at 2:30.

On Monday evening there will be Thanksgiving services at the school home in Makepeace. Rev. Mr. Thomson will preach, and there will be a special program also.

On Monday evening there will be a turkey supper in the Makepeace school house for the benefit of the Bassano school fund. Supper will be served from 7 till 9 o'clock. Charges will be 50¢, and 25¢ for children. After the supper there will be a dance. Everybody is cordially invited to be present.

**Wet Weather Halts Threshing Operations**  
Few More Days' Work Will Finish Threshing Around Bassano

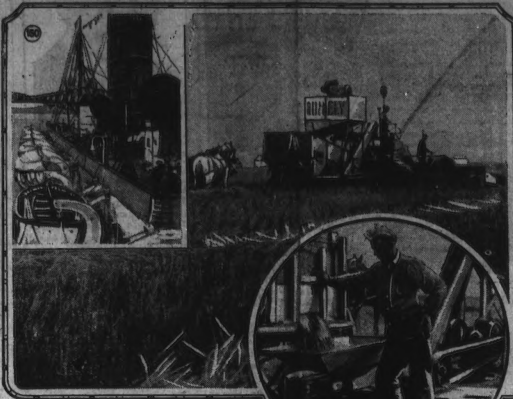

Rain last Monday night, followed by snow Tuesday and Wednesday, continued damp weather on Thursday, has interrupted threshing operations. Except for one wet day several weeks ago, this is the first period in a continuous spell of splendid threshing weather.

Most farmers in the vicinity of Bassano have finished threshing all their grain, and a few more days' work will see the last of the wheat run through the separator.

The wet weather has brought some relief in the shortage situation, is grain hauling has practically ceased, and the elevators have a chance to empty some of their full bins.

**Elevator in Danger**  
The local A. P. elevator was in danger of collapsing this week when, with his fall to the top, the foundation on one side of the building began to sink. Box cars were hurriedly commissioned, and some of the grain loaded on the track, which relieved the strain on the building. A crew of men is now here strengthening the foundation. The rain and snowfall will help put the ground in shape for fall plowing.

## THE YEAR OF HOMEGOING.

The mean steamer carries a bumper crop, and the men of the West anticipate the golden stream of a prosper from wages to be received, clear—on the steamer of gold, however.

There has been a record crop. The West will continue to flourish in a thousand cases, a few years of struggle with nature has been rewarded. And what will it mean more roads, more cars, more machinery, more alfalfa and stores and homes and radios. A bricker trade, more industrial activity in the west, more shipping and more car loadings per mile. More wealth turning all over the country.

Providence has been mainly responsible for all this. The things that he has done to think of other things than wheat and rain and frost and sun and harvesters and the rail and steamship companies are anticipating his thought. In a few weeks now there will be a feverish packing of bags, a collecting of the children, a donning of new hats and shoes and a rush for the train.

This year the transportation officials will be the first of the home-going. The English, the Jersey farmers, the Scotch and the Irish and the Continentals too. The Canadian Pacific officials foresee to great a track that they have already planned many special trains out of the West, and many steamship companies are preparing to carry the wheat and the children and the Christmas and New Year's with the old folk and all the passengers, leaving in comfort and safety.

The Minnedosa will give the more fortunate ones a sailing from Montreal on November 28 for Glasgow, Belfast and Liverpool. On the arrival of December the Metacomb and Montclair will sail from Saint John, one for Chatham, Southampton and Antwerp and the other for the Liverpool run. The Melita, sailing on the fourteenth, will stop on route at St. Helier with a large number of home-going Channel Islanders and the Duchess of Atholl sailing on the 15th will take the last of those going home for Christmas via Glasgow or Liverpool. The sailing of the Montclair on the twenty-first is for those who have New Year's means more.

Just to illustrate to what great extent a good western crop affects industry: one printing establishment was kept busier than usual for some time printing an extra order of Canadian Pacific traveling cheques and money orders. These will, an official said, be sent or carried by homesteaders to practically every quarter of the civilized world. Whatever the semi-crop conditions may be, the Canadian crop will be appreciated and received more than ever.

### LATHAM COMMUNITY CLUB

Mrs. Hoff acted as hostess to members of the Community Club on Oct. 4th. The business part of the meeting was spent in planning for the supper to be held Oct. 19th.

A dance was held in the Community Hall Oct. 5th. There was not a very large crowd present, but those who did attend had a very pleasant evening.

In place of the regular meeting at Mrs. Kukulovsky's on Oct. 18th, a special meeting will be held in the hall on Tuesday, Oct. 16th, and Mrs. Kukulovsky will take her meeting a little later.

dation on one side of the building began to sink. Box cars were hurriedly commissioned, and some of the grain loaded on the track, which relieved the strain on the building. A crew of men is now here strengthening the foundation. The rain and snowfall will help put the ground in shape for fall plowing.

## COUNCIL DISCUSS NEW ELECTRIC CURRENT RATES

Want Understanding on Power Pumping Rates—Everything Else O. K.

Before signing the agreement adopting the new rates for electric current the town council wish to come to an understanding with the United Electric & Engineering Co. as to the rates to be charged for current used in pumping the town water supply. The subject was discussed at some length at the last council meeting.

At present there is an agreement between the town and the electric company providing for a special minimum rate on this current. This agreement expires August 1st, 1936. In drawing up a new scale of rates the company made no provision for special rates for pumping, so the town is withholding its approval on the new rate scale until an understanding on this matter has been reached. The new rates, insofar as they affect domestic and commercial services, meet with the approval of the council, as they mean a substantial reduction in current charges to those who use the minimum amount of current.

The franchise which the electric company has for supplying current to Bassano, expires Dec. 1, 1935.

**Engineer's Report**  
Town Engineer Frank Mead submitted his report for the month of September. The number of water services and leaks in the main were repaired; a hydrant dug up and repaired; traps have been and water-lipical plant changed over and cleaned; one grave dug; some streets graded; and holes filled in other streets. Three arrests had been made, with \$40 due the town in fines.

**For Road Cross**  
The council decided to send the sum of \$40 to the Road Cross.

**To Grade Main Road**  
As the government road grading outfit was in the vicinity the council decided to get them to grade the main highway through town.

The matter of destroying the weeds was left to the town engineer to act

## Countess News

COUNTRESS, Oct. 11.—Eugene Cowan spent the week-end in Bassano visiting with the McDonald girls.

Mr. Lore, of Latham, has done a number of threshing jobs in Countess this year. He is now at the Diagraph.

Mr. Honey moved his road camp to the Churchill place Tuesday where he expects to do some badly needed road work if the weather permits.

The snow and wind Wednesday held up the threshing, and made the stock camper for shelter.

Mrs. Max Gamble and Mrs. Sims were the guests of Mrs. A. Smith, of Latham, Wednesday at an afternoon party.

Mrs. E. R. Heidt, May and Fred, were in Bassano shopping Saturday.

Mr. and Mrs. Sims enjoyed a most pleasant day at the home of Mr. and Mrs. Newman on Sunday.

Mr. McDonald visited with his family at the Anderson home for the week-end.

Mr. and Mrs. John Brown and two children, Mr. and Mrs. Morgan and baby and Trevor Morgan, of Rosemary, were guests of Mr. and Mrs. T. Smith on Sunday.

### CARD OF THANKS

We wish to thank our many kind friends for their sympathy and kindness during the illness and death of Mrs. Sarah Ellen Mort, and also thanks for the floral tributes.

The Family.  
Accounts

The following accounts were read and passed for payment:

Electrician Engineers Ltd. \$1.50  
Mortuary Allowance 50.00  
Telephone 15.00  
United Elec. & Eng. Co. 244.87  
Bassano School-Disc 1000.00  
Pay Roll for Sept. 248.33  
A. G. Bond 2.00  
Currie & Mifroy Ltd. 4.70

### KURKEY SUPPER AT MAKEPEACE SCHOOL

The Makepeace Sunday School will give a turkey supper on Monday, Oct. 15th. The event will be held in the Makepeace school, and a charge of 50¢ for adults and 25¢ for children will be made.

## UNION AIRPLANE TO VISIT DRILLING CREW

Bert Purinton was in Bassano last Saturday evening from his camp near Bow City where he is in charge of a well drilling outfit. Mr. Raby, of Calgary, who is supervising the drilling, visited the camp last Thursday, coming down from Calgary by airplane.

The name of the company for whom Mr. Purinton is drilling is not divulged, but they have large cases holdings near Bow City, and are putting down a number of test wells. The well crew is now working about five miles northwest of Bow City.

### REVEAL AT KNOX CHURCH

An official was given at Knox Presbyterian Church last Wednesday evening, Oct. 10th, when Miss Betty Kingsbury, of Edmonton, presented a program of songs under the auspices of the Ladies' Aid.

Miss Kingsbury has a rich and powerful soprano voice, and she was warmly applauded by the audience. Mrs. E. J. Bell, of Hussar, conducted the program with readings, and Mrs. Rescor, of Hussar, rendered several piano numbers.

Mrs. Culbertson was accompanied by Miss Kingsbury.

### Road Drugging

A motion was passed to the effect that the men in charge of the road work of the golf course be requested to have the road dragged and put in good condition.

**Trunk Marking**  
C. Hagger said that the main highway through town was not suitably marked with signs, and strangers frequently got off the road while passing through town. This matter was referred to the public affairs committee.

**4,000 Bushels Of Wheat Burned At Eyremore**

E. E. Newton, who farms in the Eyremore district, lost 4,000 bushels of wheat in a prairie fire last Saturday, Oct. 6th.

Bassano people saw the smoke from the fire on the horizon southeast of town shortly after noon, and J. C. Cawsey and a number of men left by car for the scene of the blaze.

Geo. Turnbull, on the J. Ward farm, lost 5,000 bushels of wheat and oats in the stack, and the big barn was also burned.

It is believed the fire was caused by a spark from an engine.

## Brother Of Sergt. Robt. S. Wight Is Hero Of Arctic

When Expedition Stalks Party They Feed Dogs Sealskin Boots and Trousers

Under the title of "The Price of Arctic Dominion" in the October 1st issue of McLean's Magazine is a graphic tale of danger, daring, and indomitable courage in the face of "terrible blizzards and death by starvation, as encountered by the members of the Canadian Mounted Police who patrol the far Canadian Arctic outposts.

Ther hero of this story is Sergt. J. B. Wight, brother of Sergt. Robt. S. Wight, now of Leithbridge, and for many years in charge of the Bassano detachment of the A. P. Police.

Sergt. Wight of the Arctic patrol speaks very modestly of his experiences in the ice-bound north, but inquiry reveals that he and his companions in their every-day work use "outdoor danger," excitement, and adventure that rival the fantastic tales of fiction.

The story in McLean's Magazine tells how Sergt. Wight and his men met with many hardships in their work of patrolling the Arctic and "biting the scattered outposts and business crime in the district. On one of these trips, a journey of nearly 700 miles, the party ran short of food for their dogs, and the four dogs the animals travelled without a bite to eat. When at last they arrived within a day's journey of a trading post they fed the dogs on the scraps of food that had been left in reserve—a meal of sealskin boots and trousers—and with renewed vigor the dogs were able to push on till the trading post was reached.

## School Fair Suggested At B. of T. Meeting

Will Get Views of Neighboring School Districts

Whether or not the school fair will be revived in Bassano is a matter which will probably be decided by the boards of the school districts affected, but the subject was brought before the Bassano Board of Trade at the meeting held in the Hunter Hotel dining room last Wednesday, Oct. 10th. A letter from the Bassano school board dealing with this subject was read at the meeting. The letter stated various reasons why the local school board was not in favor of the fair. Neighboring districts were being communicated with and it was decided to do nothing further until they have been heard from.

A. T. Connolly brought up the matter of the incinerator, and said it should be made use of to burn about 100,000 lbs. of refuse. Mr. Connolly said that the matter is not enough combustible matter in the rubbish to operate the incinerator, but A. T. Connolly conceded there was.

**Hall Robbed**  
Interesting News Items From the Duchesne District

**DUCHESNE, Oct. 11.**—Some one robbed Jack Anderson's pool hall and got away with the cash register and some barber tools. The cash register was found out on the sports ground on Tuesday, broken open and about \$15.00 cash taken out. There is no clue as to who performed the burglary.

Miss Evelyn Nash is here visiting at the home of her sister, Mrs. Fillet.

Miss Lillian McDonald, of Calgary, is visiting her mother, Mrs. Sam Stone.

Mr. and Mrs. Blankenship and Mr. and Mrs. Cathro, of Bassano, called on Mr. and Mrs. Fillet Sunday.

Mr. and Mrs. Blish, Mr. Cathro, Mr. McFarlane, and Mrs. Margaret Woodward went to Brooks Sunday and played golf.

The Duchesne basketball team is going to play with the Brooks team on Sunday.

There will be a dance at the U. P. hall Friday night.

Work on the new church was progressing, but the snow storm has about stopped it.

**Charlie Chaplin In "The Circus"**  
Peanuts, sawdust, pink lemonade, lions, tigers, elephants, roaring lions, acrobats, and strange animals, Charlie Chaplin in his brand new comedy will all be at the Gen Theatre on Thursday, Friday and Saturday, October 11th, 12th, and 13th. Written, directed and produced by Charlie Chaplin. "The Circus" was two years in the making and it is the first Chaplin comedy since the "Gold Rush."

Charlie plays a wandering lad who is mixed up in a series of hilarious adventures, chases, arguments and events that last him in "The Circus" as a very fine fellow. Moran Kennedy, with red hair and just five feet two, with eyes, of blue, is his leading lady; she makes her every debut in the role. Others in the cast are Harry Crocker, Henry Bergman, Betty Morrison and Allan Greer.

According to the main of United Artists Corporation, which released the new Chaplin comedy, "The Circus" presents the Chaplin of old, the Chaplin of "Modern Times," "The Great Dictator," and "The Pilgrim"—the thumping bumping little man with the trick derby and cane, the wriggling mouth, the eyes that last him in "The Circus" as a very fine fellow. Moran Kennedy, with red hair and just five feet two, with eyes, of blue, is his leading lady; she makes her every debut in the role. Others in the cast are Harry Crocker, Henry Bergman, Betty Morrison and Allan Greer.

A thrilling picture of the fire brigade, "Hook and Ladder No. 9," is coming Monday and Tuesday next week, Oct. 15 and 16. There is also a gang comedy.

Charlie Bow will be seen in one of her best pictures, "Get Your Man," Friday and Saturday next week, Oct. 19th and 20th.

## GEM THEATRE

Thursday, Friday & Saturday  
October 11th, 12th & 13th  
CHARLIE CHAPLIN

in  
"THE CIRCUS"

Funnier than a rubber tent pole!  
More convulsing than a trick  
mule's left hind foot!

The Headliner without a Peer;  
the Show without an Equal.

Mon. & Tues., Oct. 15th & 16th  
Joseph P. Kennedy presents  
"Hook And Ladder No. 9"

Clanging Gongs!  
Shrieking Sirens!  
Roaring Wheels!  
Crackling Flames!

Friday and Saturday October 19th and 20th  
Clara Bow in "GET YOUR MAN"

# Empire Party Was Well Peased With Reception In Canada

Sydney, N.S.—Delegates of the Empire Parliamentary Association have just been received in this province. "We have been treated like princes," they have been received here, and friends exclaimed Viscount Lascelles, chairman of the delegation, addressing a final dinner given by the Canadian club yesterday at Sydney. And to his words of farewell and gratitude were added those of representatives from every parliament in the Empire.

In their journeyings through Canada, Lord Peel, members of the British delegation had been subjected to no untoward incidents. It had been thought in some quarters apparently that the Empire marketing board was an instrument for selling British goods in Empire markets. In reality it was designed to push Empire goods in the British market and the cost fell on the British taxpayer. It had been thought, in some quarters, that the unemployment insurance, misnamed the "dole," was a moralizing charity. In reality the employees paid his share to a fund and was entitled as of right to his unemployment payment when the care of unemployment fell upon him.

"We have heard it suggested," Lord Peel added, "that we were to load Canada with inefficient unemployed." "I repudiate with all my force this infamous suggestion," he said. "I am convinced, great opportunities in Canada, with good organization, for substantial numbers of able and willing workers from our country who will form a fine type of Canadian citizen. We further discussed the opportunities for the investment of capital from Great Britain and the other Dominions and our speakers have laid stress on the necessity for a more vigorous policy so that there will be no disappointment to the investor."

## General Allenby In New York

British Here Honored By Official Salute Of Gun

New York, Feb. 14.—General Sir Edmund H. Allenby, so-called fast traveler, who conquered the Turks in Palestine and Egypt for the British, was welcomed on his arrival here for the American Legion Convention to be held soon in San Antonio.

Arriving on the liner Majestic with Lady Allenby, General Allenby received an official salute from the army reservation on Governor Island as the city's reception boat "Macon" carried him to the liner to the battery at the Southern tip of Manhattan Island.

"The British here saw of the growing tendency toward a 'keep doing as you are' among nations but saw no sign for great disarmament at present," he said. "I do not believe there is anyone in the world who does not want peace if they can get it," he said. "However, one has to be ready for war, as you do, and to keep the door open by leaving the door unlocked."

## First Freight Has Reached Flin Flon

Five Tractors Have Been Delivered At Mile 88

Flin Flon, Man.—Following the driving of the last spike on the Flin Flon Railway, freight has started to arrive by train and the first load, consisting of five tractors with trucks on attachments, delivered a mile from them during the coming winter.

There are now 15 tractors hauling freight in and out of the big mine. The arrival of a further shipment of tractors is expected in the near future and by freeze-up roads to Inland Falls should be in shape to start the heavy traffic which will be coming from the coming winter.

Valuable Opium Seizure

New York, Feb. 14.—Three thousand cans of opium with a holding value of \$100,000 were seized on the Dollar Line steamer "President Harrison," which docked at Jersey City. Four Chinese members of the crew were arrested charged with attempted smuggling.

For Hurricane Relief Fund

Washington, D.C.—Contributions to the West Indian hurricane relief fund has reached more than \$400,000, the Red Cross committee. Nearly \$1,000,000 more is needed to make up the \$5,000,000 required.

W. N. K. 1754

## Fire Takes Four Lives

When Farm House Near Brandon Was Completely Destroyed

Brandon, Man.—Four persons were killed to death when the farm house of Alex Wilson, near Moore Park, Man., was destroyed by fire.

The dead, Mr. and Mrs. Alex Wilson, Marvin Wilson, their son, and Miss Sarah Wilson, Mr. Wilson's sister.

The fire was discovered by I. M. Harrison, a neighbor, when he was awakened by the reflection of the flames upon his windows. He put on his clothing and rushed out to discover that the Wilson house was on fire. The blaze was too far advanced at the time to permit "rescue work."

W. E. Mann, general storekeeper at Moore Park, rather of Mrs. Wilson, was also quickly on the scene, but the heat was so intense that he could not get near the building.

All of the bodies were recovered. The cause of the fire is a mystery. The barn, garage and other buildings on the farm were unharmed.

Exhibit For Royal Winter Fair

Saskatchewan Will Send Fifty Of Its Best Horses

Regina, Feb. 14.—The pick of the Clydesdales, Percherons and Belgians in the province, will represent Saskatchewan at the Royal Fair, Toronto, in November. It was decided at a meeting of the livestock board held recently.

While many selections have yet to be made, both in horses and other classes, the board has definitely decided that the following will exhibit: Clydesdales.—The Experimental Farm at Indian Head, the University of Saskatchewan, John Falconer, Graham, and Mr. W. H. Byers, Donnie Lodge, Arcola.

Percherons.—C. M. Reas, Regina, Robert Weir, Weldon; George Doan and Sons, Stoney Beach.

Belgians.—C. M. Reas, Regina, Robert Thomas, Grandora, and Andrew Nolan, Havelock.

In the horse exhibits from this province there will be 20 Clydesdales, 15 Belgians and 15 Percherons. Many other exhibitors are yet to be named.

Adheres To Peace Pact

Soviet Deposit Note With State Department At Washington

Washington, D.C.—Soviet Russia has joined the other nations adhering to the Kellogg-Briand treaty for renunciation of war. A document formally signifying Russia's adherence has been deposited with the State Department by the French embassy, acting on behalf of the Moscow government, the United Press learned.

The state department officials declined to discuss to the content of the document, but said it was placed with the original copy of the treaty. Officials intimated it would not be made public.

Plaid Vision Of "Flare Crash"

Port Angeles, Washington.—The body of Dr. E. Holden, of Victoria, B.C., one of the seven victims of the ill-fated Victoria-Seattle plane which disappeared while en route to Seattle August 25, was found in Port Angeles harbor. The plane was headless and badly damaged. It was the fourth body of the seven in the plane to be found. The plane itself has as yet not been located.

Premier King Returning

Ottawa.—Premier Mackenzie King will sail for Canada on or about the 15th of this month, according to word received here. He will probably be accompanied on his return journey by Hon. C. A. Dunning, minister of railways, and Hon. Raoul Dandurand, government leader in the senate.

Find Lost Scout

Windsor, N.S.—Col. Collins, South African delegate to the Empire Parliamentary Association, disappeared on Feb. 10, missing Canadian scout of the Boer War, whom Collins has been seeking all over Canada, resides at 1230 37th Avenue, Vancouver.

## Arrest Train Bandit

Robber Of Ontario Mail Car Offered No Resistance

Windsor.—Three hours after a mail car had been robbed of Canadian currency estimated at about \$40,000, John Gibba, 26, said to come from Los Angeles, Cal., was arrested by the local police on the Detroit River train ferry and landed in the goal here.

According to authorities here he has admitted his guilt. Gibba was in custody he was carrying two pistols but offered no resistance to the officers.

The robbery was a most daring one the lone bandit holding the mail clerks helpless at the point of a revolver while he calmly looted the car.

Major Godfrey Returns

Brings Motor Of Big Seaplane Which Was Wrecked In Crash

Edmonton, May 12.—Godfrey, noted Canadian aviator, whose recent crash in the northern wilds attracted Dominion-wide attention, arrived in Edmonton recently from Peace River accompanied by Sergeant-Major Graham, one of his three companions on the flight which ended in the Peace River.

Major Godfrey brought with him the motor of the big Fairchild seaplane which he and Sergeant Graham remained behind to salvage from the wreckage of the machine. The motor was forwarded to Ottawa.

## TO INVESTIGATE MARKETING OF CANADIAN WHEAT

Winnipeg.—Conditions surrounding the marketing of the wheat crop, the main concern at present of W. K. McRae, federal minister of agriculture, who was here in connection with departmental business.

Immediately following his arrival in the city, Mr. McRae went to the Board of Grain Commissioners to the Grain Exchange for a meeting with the inspection staff. He spent a day at Fort William inspecting the handling of grain there. The minister indicated that investigation to some conditions pertaining to the marketing of Canadian wheat was in progress, partly as a result of complaints which he had heard in the British Isles during his recent trip in connection with the marketing of last year's crop.

In his investigations abroad, Mr. McRae was guided by the relation of Canadian production and trade to that of the countries he visited, keeping a sharp lookout for methods which might be applicable in Canada, and opportunities for marketing of Canadian products.

It is found in the British Isles a strong sentiment for Empire products, but as far as Canada was concerned, no opinion was formed. It is intimated that Canada could market four or five times as much dairy produce by doubling her production, and exporting the surplus over consumption.

While in Winnipeg, Mr. McRae will plan to visit the Just Research laboratory at the Agricultural College, and he will consult the members of his staff in the various branches of the department here.

Open Office In Peru

Ottawa, Feb. 14.—Reneva, Canadian Trade Commissioner in South Africa, has arrived in Canada en route to Peru, where he will open a new office with jurisdiction over Peru, Bolivia and Ecuador. Prior to his departure for South America, Mr. Reneva will visit manufacturing centres of Canada in connection with Canadian exports to his former territory.

A VERY GRIM TALE

London, Eng.—and the recent Lake conference, Ramsay MacDonald made an important speech saying, "We must orient our diplomatic policy anew. I say that, without coming to France, it is not good for France or for us that we should re-establish any sort of alliance."

France is bound to take notice of this declaration on British policy from the leader of the opposition. The country has not yet any clear knowledge as to whether the present government is re-establishing the alliance with France, but unpublished agreements as to armaments on hand seem to imply a new date.

Ramsay MacDonald proposes to drag a declaration from the government when parliament meets next month. There are reports that the French government will immediately publish all correspondence on the naval side of the agreement. The understanding as to land forces is said to have been expressed only verbally.

Shining Office At The Post

The Post, Montreal.—Establishment of a government mining office at the Post has been effected by Hon. Chas. Stewart, minister of the interior. It will be under the direction of J. Ross, of Alberta, Prof. V. Siebert and A. L. Cumming, engineers of the department, in charge. The office is in the Bank of Toronto building.

Has Narrow Escape

Kansas City, Kansas.—The life of Daniel Towetich, 14-month-old baby, was under the direction of a railroad track, was saved when an approaching train was halted just as the boy, clinging tightly to the rail, was about to be struck by the train.

Had a Narrow Escape

London, Eng.—and the recent Lake conference, Ramsay MacDonald made an important speech saying, "We must orient our diplomatic policy anew. I say that, without coming to France, it is not good for France or for us that we should re-establish any sort of alliance."

France is bound to take notice of this declaration on British policy from the leader of the opposition. The country has not yet any clear knowledge as to whether the present government is re-establishing the alliance with France, but unpublished agreements as to armaments on hand seem to imply a new date.

Ramsay MacDonald proposes to drag a declaration from the government when parliament meets next month. There are reports that the French government will immediately publish all correspondence on the naval side of the agreement. The understanding as to land forces is said to have been expressed only verbally.

## Turned Adrift In Leaky Boat

Quebec Liquor Commission Inspector Threatened With Death Ray

Montreal.—Joseph A. Poiry, Quebec liquor commission inspector, was kidnapped by bootleggers at Riviere De Loup, 16, and was taken to a small boat by the boatmen, and with two accomplices set out for a large sailing yacht which was anchored a short distance from the Riviere De Loup wharf.

The inspector managed to scramble aboard, but before his assistants could mount the boat, the yacht's engines were started and the yacht set out for the middle of the river. Poiry tried to draw his revolver, but his arms were waved from behind and he was warned he raised an outcry he would be killed and his body thrown overboard.

Later on the officer was lowered into a leaky rowboat and left to his fate. Poiry was reported to the authorities.

Believes River Under Control Of Dominion

Hon. N. W. Rowell Says Federal Rights Not Limited To Tidal Waters

Ottawa.—The Dominion parliament has authority to declare the existence of a public right of navigation over any river navigable in fact. Before the Supreme Court of Canada, Hon. N. W. Rowell, K.C., counsel for the Dominion, made this further contribution on the question of federal and provincial control respecting navigation and waterways.

"If a public right to navigation does not exist, as Ontario suggests, on the Great Lakes and the western portion of the St. Lawrence, Mr. Rowell created, 'then under the British North America Act and the power of the Dominion in regard to navigation and shipping, the Dominion must have power to take action in the interests of having a national highway for trade and commerce in Canada. My contention is that the Dominion has absolute control over navigation and shipping.'"

Opposes Renewals Of Entente

Ramsay MacDonald Thinks Alliance With France Is Unwise

London, Eng.—and the recent Lake conference, Ramsay MacDonald made an important speech saying, "We must orient our diplomatic policy anew. I say that, without coming to France, it is not good for France or for us that we should re-establish any sort of alliance."

France is bound to take notice of this declaration on British policy from the leader of the opposition. The country has not yet any clear knowledge as to whether the present government is re-establishing the alliance with France, but unpublished agreements as to armaments on hand seem to imply a new date.

Ramsay MacDonald proposes to drag a declaration from the government when parliament meets next month. There are reports that the French government will immediately publish all correspondence on the naval side of the agreement. The understanding as to land forces is said to have been expressed only verbally.

Shining Office At The Post

The Post, Montreal.—Establishment of a government mining office at the Post has been effected by Hon. Chas. Stewart, minister of the interior. It will be under the direction of J. Ross, of Alberta, Prof. V. Siebert and A. L. Cumming, engineers of the department, in charge. The office is in the Bank of Toronto building.

Has Narrow Escape

Kansas City, Kansas.—The life of Daniel Towetich, 14-month-old baby, was under the direction of a railroad track, was saved when an approaching train was halted just as the boy, clinging tightly to the rail, was about to be struck by the train.

Had a Narrow Escape

## Issues Denial of Charge Against His Department

Hon. W. D. Euler

Quebec Liquor Commission Inspector Threatened With Death Ray

Montreal.—Joseph A. Poiry, Quebec liquor commission inspector, was kidnapped by bootleggers at Riviere De Loup, 16, and was taken to a small boat by the boatmen, and with two accomplices set out for a large sailing yacht which was anchored a short distance from the Riviere De Loup wharf.

The inspector managed to scramble aboard, but before his assistants could mount the boat, the yacht's engines were started and the yacht set out for the middle of the river. Poiry tried to draw his revolver, but his arms were waved from behind and he was warned he raised an outcry he would be killed and his body thrown overboard.

Later on the officer was lowered into a leaky rowboat and left to his fate. Poiry was reported to the authorities.

Believes River Under Control Of Dominion

Hon. N. W. Rowell Says Federal Rights Not Limited To Tidal Waters

Ottawa.—The Dominion parliament has authority to declare the existence of a public right of navigation over any river navigable in fact. Before the Supreme Court of Canada, Hon. N. W. Rowell, K.C., counsel for the Dominion, made this further contribution on the question of federal and provincial control respecting navigation and waterways.

"If a public right to navigation does not exist, as Ontario suggests, on the Great Lakes and the western portion of the St. Lawrence, Mr. Rowell created, 'then under the British North America Act and the power of the Dominion in regard to navigation and shipping, the Dominion must have power to take action in the interests of having a national highway for trade and commerce in Canada. My contention is that the Dominion has absolute control over navigation and shipping.'"

## Fire Destroys Castle Of Viscount Lascelles

Property In Irish Free State Mass Of Ruins

Portsmouth, County Galway, Irish Free State.—Portunna Castle, where elaborate arrangements were made for the approaching visit of the over-Viscount Lascelles and his wife, Princess Mary, was buried to the ground.

Civic guards and soldiers made a futile effort to bring the blaze under control. The main portions of the Portunna Castle were burned in 1927, and the recent fire attacked the remaining parts of the castle and the outbuildings.

"During the night 25 tons of hay and straw, which were stored in the castle, were burned. It stated the visit of the couple to Portunna may be postponed."

Would Make Travelling In Empire Easier

Plan To Abolish Passports From One Part To Another

Toronto, Ont.—A campaign for the abolition of the requirements of the British Government that British-born travellers going from one part of the British Empire to another should possess passports, will be conducted by the Canadian Steamship and Tourist Agents' Association, the association decided recently.

"Members of the Association are confident that, in this move, they have the sympathy of the travelling public, who have to abide by the unnecessary trouble," they will endeavor to bring to bear upon the British Government—through the Department of External Affairs—very clearly strong evidence to have this class of passport eliminated.

Harvesters Have Good Year

Men Returning East With More Money Than Usual

Winnipeg, Man.—Harvesters are taking home with them more money than usual this year. This is due to the unusually fine weather which has favored the operations and to the proportion of harvesting because of the unusually heavy crop.

"The men returning by train and bus, some to eastern Canada and some to Great Britain, are well satisfied with the money they have made. Canadian National officials said recently that several had expressed their intention of returning to become permanent citizens of the West."

SUNDAY SCHOOL LESSON

OCTOBER 14

SPIRITUAL GIFTS

Golden Text: "Now abideth faith, hope, love, these three; and the greatest of these is love."—I Corinthians 13:13.

Lesson: 1 Corinthians 12-14.

Devotional Reading: 1 John 4:16.

Explanations and Comments

Spiritual Gifts are Diverse, But the Spirit is the Same, 12:4-7.—There are rivalry among the Corinthians as to which of them possessed the most powerful gifts for God's service. The tendency at Corinth was to estimate the value of their gifts by their showy rather than their solid character."

The reverse was Paul's way. "The things we consider most precious, most after, all, least important as compared with the strength to endure with fidelity is more significant. The touchstone and test of our Christianity is our love of Jesus Christ. If in our souls we have love for God's service, we possess the Spirit of Life." (John Gardner.)

There are different gifts, but the same Spirit reveals himself in them all. There are different ways of ministering, but back of them all is the same Spirit. There are different gifts of activities, but they are all wrought by the same God. To each one is given his own measure of the Spirit for the good of others.

Paul does not disparage spiritual gifts, but he insists that they be used in love and co-operation in the church, and that his endorses in verses 12-14. The desire of the body and its members, as all of the members are so essential to the church, that it is with the church and its members.

Nurses For Labrador

Montreal.—Two nurses, Misses Chabot and Cole, have been sent for Labrador, dispatched there by the Federal Minister of Health. They will act as outlying stations of Harrington and Melville Bay.

Eliminate Level Crossings

Toronto.—With the object of eliminating every level crossing in Ontario, the province government department of highways is having an official road on every point where railway lines cross one of its highways.

### THE BASSANO MAIL

Published Every Thursday  
L. D. Nesbitt and W. J. Smith  
Publishers  
Wallace J. Smith, editor  
Subscription—\$2.00 a year in Canada  
\$2.50 to the United States

With the new talking movies the silent drama can speak for itself.

If Roma had been a golf course Nero would have been playing 18 holes instead of playing the fiddle.  
—Medicine Hat News.

The newest and most efficient cigarette lighter has a container for matches.

Chicago is said to be a church-going town. Yes, they frequently have funerals there.

### AN EYE-OPENER

ON the west side of Bassano there is a spot that is a disgrace and an eyesore to the town. We refer to the incinerator grounds and industrial site which for some years past, has been used for a nuisance ground.

All over the industrial site are heaps of tin cans, rubbish, garbage, and other filth, the accumulation of several years. This stuff is dumped there and left to rot, and some of it is blown back to town with the first strong west wind that comes along. And the wind isn't always the strongest, though, either, for there is sometimes a powerful odor wafted over from the garbage heaps, an odor that makes you reach for your handkerchief and hasten away to where the air is pure and fit to breathe.

The dump ground is an unsightly spot, and not only unsightly, it is unsanitary, unhealthy, and a breeding place for flies, which are carriers of disease germs.

Years ago an incinerator was built to burn such refuse. It was in operation for a long time, but has not been in use for the past few years.

It has been claimed there is not enough combustible matter in the rubbish to burn it in the incinerator, and therefore it was shut down and the rubbish dumped on the ground. In former years the incinerator was successfully operated, and could most probably be operated again. It is especially built to burn rubbish, and it should work.

This matter was brought up at a recent board of trade meeting. Since then the town council has taken steps to destroy some of the rubbish heaps by setting fire to them. But this is only a temporary measure, and very unsatisfactory. The refuse should be burned in the incinerator. That is the only way it can all be destroyed.

As a measure for good health and satisfaction the people of Bassano should insist on the operation of the incinerator.

### A SPLENDID EXAMPLE

In the town of Clarendon a movement is on foot to organize a municipal hospital. The purpose of the scheme point to the Bassano Hospital as being a splendid example of municipal hospital operation.

It must give the local hospital board and the ratepayers of the district a feeling of justifiable pride in being held in high regard by people in other parts of the province. And indeed there is something to be proud of. Organized in 1913, the district has grown and prospered, bringing modern hospital facilities to the people here, and doing a great work in relieving sickness and suffering. Former opponents of the municipal hospital are now most enthusiastic supporters, and new districts have been added by their own voluntary petition.

The hospital building is now being enlarged, a nurses' home is being built, and the district is enjoying an era of prosperity.

### LIVESTOCK FIRM

Reports that the livestock markets throughout the world are firm, and prices are expected to remain good for several years, is cheering news to farmers in the irrigation block who are going in for mixed farming and stock raising.

The irrigation block is especially adapted for stock raising and dairy farming. This branch of agriculture has gained a good foothold here, and the signs indicate it is on the increase. Under irrigation an abundance of stock feed every year is assured, and with this assurance, farmers are turning their attention to hogs, beef and dairy cattle.

The history of successful farming in other irrigation districts is a story of success built upon intensive mixed farming, with hogs and cattle occupying a prominent position on the farm. What has been done in other districts can be done here, where conditions are favorable, and a good market is in sight for some years.

### TO ONE COMPLAINING OF TIME'S ADVANCE

"I have taken hostage from me surely  
Of many things most glorious to my heart;  
He took youth first; I sickened when I heard it—  
My door shut by him—his swift feet depart!"

Once you were young, why, then, not hold your tongue—  
Say, is it nothing, once to have been young?  
You'd have no need to pine in age's school  
If you had seized him by the forelock fool!

Time observes continually my going  
And coming; always while my days exist  
On every titling his spearheads show—  
He bade me beware my long antagonism!

Yet, Time must not defeat but come upon you,  
A greater foe than you will still to rout—  
When, one by one, the marching stars begin,  
Captain Destiny draws up, with—  
"out!"

### Of Course He Was

Dora was interviewing the man of her heart in the privacy of the drawing room. On the previous evening her fiancé had asked permission to marry her. The father agreed, immediately, but his wife was not so cordial, and did not approve.

"I'm afraid mother is going to be a bit awkward, dear," began Dora. "She thinks that because you are an actor you're effeminate."

The young man pondered a minute. "Well," he confessed, "compared with her, I suppose I am."

### WORLD HAPPENINGS BRIEFLY TOLD

One of the finest old churches in Moscow, the "Stranney Monastery," is being converted into an Anti-Bolshevik museum.

Leen Vandersteyn, Belgian bicycle rider, broke the world motorcycle record for sustained speed when he rode 75.1 miles in one hour.

A report is current in Bucharest that Poland, Roumania and Greece have concluded a military agreement to make a common front against Russia in the event of war.

Thousands of cattle have been drowned in the flood that came after the bursting of the Yser dykes in Belgium and farmers estimate their damage at about \$25,000,000.

The Canadian Press was reliably informed that there is no reason to believe that the Duke and Duchess of York contemplate an early visit to Canada, as rumored in Ottawa.

T. Nichols, of the Royal Canadian Mounted Police, Lethbridge, Alta., will receive the Imperial Service medal awarded by His Majesty the King, according to the Canadian Gazette.

Great Britain and the U. S. have continued for another year the agreement on administrative co-operation for the prevention of smuggling liquor into the United States by ships flying the British flag.

It was reported in League of Nations circles that the Irish Free State, following the example of Canada, is planning to establish a legation in Paris and appoint a minister to France.

The appointment of Jean Knight as French minister to Canada has been announced officially, confirming previous intimations that M. Knight would be sent to Ottawa as France's first diplomatic representative in the Dominion.

### Fine Shipment of Herefords

Range Cattle From Alberta Bring Large Sum in Chicago

Ninety-three head of dry cows from the McIntyre ranch in Alberta were recently consigned to Chicago in exchange for a \$100,000 cheque. Cattle men looking over the shipment claim that it is one of the finest lots of range cattle ever forwarded from Calgary. The heaviest animal in the lot weighed the scales at 1,700 pounds and the ninety-three averaged 1,350 lbs. These cattle come from one of the few remaining old-time ranches which is running a herd of upward of 5,000 Herefords.

### Engineering Feat a Success

An engineering project, unique in Canadian history, was declared a success at Fort Arthur, Ont., when tests were made of a pipeline by which ground pulp in slush form is carried from a grinding mill of the "Thunder Bay" Paper company, at Current River, to the paper mill two miles north. The tests were highly satisfactory, states the Thunder Bay management. The pipe is of cast iron, ten inches in diameter, and two miles long.

They were seated across the table from each other in the restaurant, the wealthy oligarch and the gold digger.

"Will you marry me if I have my health restored?" he asked.

"I'll marry you," she replied, "but you leave your health the way it is."

If a Malady chills falls ill after receiving its name it is temporarily adopted by another family who gives it a different name.

### Marketing Problems

Better Split Between Producers and Dealers is Necessary

"Producing a crop is one problem; marketing it is a worse of another order," states Hon. W. R. Motherwell, Minister of Agriculture. Complaints had been made in the British Isles and several continental countries in connection with the 1927 crop, he said.

"I believe a more co-operative spirit between the dealer and producer would result in the solution of most of our difficulties," Mr. Motherwell continued. "This would mean that it is necessary from evidence suggesting that some of the more daring dealers have been attempting to sell dangerously close to the limit in tampering with grade and doing more mixing than seems just advisable."

Mr. Motherwell indicated that further investigations would be made in order to correct some very unsatisfactory conditions which he said surrounded the marketing of the wheat crop.

With reference to bacon and dairy products, British importers were pleading their faith in Canada's system of standardization, he declared. Satisfaction with grades was general, but consistency of the meat supply was essential. He advocated increasing Canada's dairy products four or five times, declaring that "Canada will then occupy a position of no more to produce markets of the world."

Protect Submarine Crews

Italian Has Invention That May Prove of Great Value

Cesar Borghetti, inventor of an apparatus for saving the lives of submarine crews in case of danger, has succeeded in interesting the Italian government in his invention and now gives the press some details of his amazing invention.

Signor Borghetti's apparatus consists of several heavy cylinders attached to the sides of the submarine in such a way that they do not impede its passage through the water. The number of tanks which it depends on the number of men in the crew.

The other chambers are reached by two doors from the interior of the vessel. Inside of each of these cylinders is another airtight chamber with four compartments holding compressed air.

When the shipwrecked crew is inside the inner chamber and the doors are lightened, a lever release it from the outer cylinder which is firmly attached to the sides of the submarine. The cylinder containing the men is constructed in such manner that it will float, automatically, to the surface even from a depth of 600 feet.

World's Largest Building

Chicago Furniture Mart Ready for Work

The following buildings are reckoned by their cubic measurements to be the largest buildings in the world: Chicago Furniture Mart, 25,270,000 cubic feet; Equitable building, New York, 24,600,000 cubic feet; General Post Office building, London, 20,250,000 cubic feet; Union Trust building, Cleveland, 20,000,000 cubic feet; Railway Exchange, St. Louis, and Illinois Merchants' Bank, Chicago each 17,800,000 cubic feet; and the Continental and Commercial Bank, Chicago, 15,200,000 cubic feet.

"I see you have a sign in your store. We 'Aim to Please,'" remarked the irritated customer.

"Certainly," replied the proprietor, "that is our motto."

"Why," replied the other, "you ought to take a little time off for target practice."

Mr. Bing: "Why doesn't your husband wear the wrist watch you gave him for his birthday?"

Mr. Bing: "Oh, the careless boy neglected the payments and they took it back."

Haaf His Fine Motor Car

One of the finest motor cars in Western Canada is situated at Banff. The campsite is situated on Tunnel Mountain, one mile northeast of the town and is fully equipped with electric lights, running water, camp stoves and other equipment for the comfort of motor tourists.

Charles Dance Contest

Judged By England's Leader

Miss Lottie Sutton, chief judge of the Charles Dance contest for England, writes "The unique position in the dancing world of the world has never been surpassed. I had not taken care of my health. I constantly had that tired, worn, groggy feeling, with sick headache, indigestion, biliousness caused by the poison of constipation."

Your mind is never free from worry. Your mind is never free from worry. Your mind is never free from worry.

### NEW HOTEL AT LETHBRIDGE

The Marquis Hotel, Lethbridge, Alta., which has been recently opened to the public, under the management of Mr. A. W. Edwards. The Marquis is fully modern in all its appointments, is a decided asset to the city of Lethbridge, and is proving quite popular with the travelling public. The Marquis Hotel was named after the new variety of wheat of that name, and was built on a community enterprise at a cost of \$275,000.

### Cattle Feeding Awards

C. B. Latta, Govan, Wins Prize in Connection With Saskatchewan Competition

C. B. Latta, Govan, Sask., won the first prize of \$100 in the carload lot contest staged in connection with the Saskatchewan farmers' cattle feeding competition, according to the report of the judges' awards received by Hon. C. M. Hamilton.

Mr. Latta also won second prize, \$45, in the competition for groups of ten to fifteen animals, and second prize of \$20 in the group of five animals, making a total of \$145 in prize money. In addition he sold his steers at good prices. Mr. Latta made a gross profit of \$40.63 per head on his carload lot; \$43.17 per head on his group of ten, and a gross profit of \$56.70 per head in his group of five.

C. J. Peters, of Brownlee, won second prize, amounting to \$75 for the records made by his carload lot. Mr. Peters made good profits. A total of 20 steers were sold at a gross profit per head of \$38.26. A net profit of over \$20 per head. Among other prize winners, B. A. Wright, Drinkwater, won fourth prize in the carload lot, and also fourth for group of five.

Many Places in Pageant

Thousands of People Attended Air Mail Service Inauguration

The first aerial mail service between Canada and the United States was inaugurated October 1 at St. Hubert aerodrome, near Montreal, where a great aerial pageant, in which fifty planes took part, commenced at 9 o'clock in the presence of thousands of spectators. Planes of every size, even every color, Moth, Field Hamblers, Swallow, Cabin-type, Vickers-Paichild, Stinson-Detroit, Avro Avian, as flown by Hinkler from England to Australia, Leaning Amphibian, Picaresque Mailwing, 17-motor Ford, and the most interesting of all, three biplanes, participated in the evolutions. The flights were sent by the Royal Canadian Air Force, and are reported to be the most deadly warring machines in existence.

Quarantine on Trees Lifted

Canadian Christmas Trees will be permitted in the United States again this year after a lapse of some time, says the "Harrisburg" State Department of Forests and Waters.

The quarantine which prevented the shipping of the Canadian trees into the United States, because of the Gypsy Moth, has been lifted it was said.

Foundation For Artificial Silk

Although artificial silk fabric is being made of wood pulp, it can also be made from cabbages, bananas, or any other vegetable matter from which cellulose can be obtained, states an English artificial silk manufacturer.

Parks Increase in Value

Canada today counts her national parks among her increasingly valuable possessions, as they represent one of the finest systems of public reservations. From the recreational point of view to be found anywhere.

THE GREAT HERBAL SKIN BALM

### Descriptive Atlas of Canada

100,000 Copies Distributed to School Children in Old Country

School children in the British Isles will this year receive over 100,000 copies of a descriptive atlas of Canada, provided by the Department of Immigration. This is part of an intensive policy to induce migration to Canada.

The atlas is distributed free to students in the Old Country, through the central office of the department in London. Agents of the department travel through the country in demonstration vans, carrying exhibits descriptive of Canadian industries, and they lecture at the various schools. Copies of the atlas are left with the schoolmasters. Large wall maps are also provided.

The book comprises eighty pages and is stated to compare favorably with the geographical used in Canadian schools. Besides a large number of colored maps, it contains literature dealing with the physical characteristics, climate and industries of the various provinces. Special emphasis is placed on the opportunities open to those who wish to settle in Canada. The maps have been prepared by the Natural Resources Intelligence Branch of the Department of the Interior, and are stated to be of the most modern type.

The atlas is eagerly received by teachers, officials indicate, and is claimed to have won very much praise with the increasing desire by young people to look towards Canada as their future home.

Also in demand in the United States and thousands of requests for copies have been received from American schools. In congratulating Canadian officials on the excellence of the book, teachers over the border admit that comparable material used in their schools gives a very restricted and often inaccurate conception of this country. The atlas is particularly in demand in the farming areas in the central states.

Prince Was Startled

African Warriors Shook Their Heads in Old Way

The Prince of Wales was surrounded by a whooping band of savage warriors in Nairobi, East Africa, according to the Daily Mail's correspondent.

The royal party had visited the chiefs of various tribes at a temporary village on the outskirts of Nairobi when suddenly more than 100 half naked warriors raised their shields and spears, shook the high plumes on their head-dresses and rushed fiercely toward Wales' automobile.

It was the chiefs explained later, merely a demonstration to show their respect for the Prince, but his royal highness got quite a shock.

The warriors surrounded his automobile and escorted him for a long distance, shouting, grunting and chanting words which they whirled along the dusty road.

Princess Late Winter

Winter will make a belated appearance this year, according to Capt. Zachariah Leaning, 57-year-old weather bureau at Wildwood, N.J., who bases his prophecy on the fact that the geese in the vicinity are not flying south, but are still here in great numbers at this time of year you can leave the moth balls in your winter fangas for three more months," he said.

Somebody has discovered in the Himalayas a long-legged sheep that can run forty miles an hour. It would take that kind of a lamb to keep up with Mary Woudas.

If a huge clement, large enough to cover Trafalgar square and as high as Nelson's column, were built as a water-tank, London would empty it twice daily.

"Can you define matrimony?" "Yes. You go to adore; you ring a bell; you give your name to a maid; and then you're taken in."

DIARRHEA

Was So Bad

Child Passed Blood

Dr. Harry Noddy, R. R. No. 2, Shawano, Wis., writes: "Last fall my little boy took very bad with diarrhea and before I knew it he was passing blood. I went to our medicine man and gave him a dose of it."

### A Railway Revolution

Train in England Electrifies Line as It Travels

A train which has puzzled many people has been running over a portion of the L.M.S. railway in England, says an article in "Answers."

It looks like an electric train, and the track over which it has made its journey is a "diesel-electric" train, which electrifies the line as it goes along. Its engine contains a Diesel oil-engine, which drives generators to supply electric current to the motor. The whole equipment works so simply that there is a saving in labor costs, while the fuel used weighs only an eighth of that required for a steam locomotive.

Here is a real railway revolution. Already exhaustive tests have been made. In Canada, for instance, a Diesel electric train covered the distance between Montreal and Vancouver—2,387 miles in 28 hours, beating a steam train in 35 hours. Another 23 miles run was accomplished at a speed, on the average, of over 60 miles an hour.

Princess Late Winter

Winter will make a belated appearance this year, according to Capt. Zachariah Leaning, 57-year-old weather bureau at Wildwood, N.J., who bases his prophecy on the fact that the geese in the vicinity are not flying south, but are still here in great numbers at this time of year you can leave the moth balls in your winter fangas for three more months," he said.

Somebody has discovered in the Himalayas a long-legged sheep that can run forty miles an hour. It would take that kind of a lamb to keep up with Mary Woudas.

If a huge clement, large enough to cover Trafalgar square and as high as Nelson's column, were built as a water-tank, London would empty it twice daily.

"Can you define matrimony?" "Yes. You go to adore; you ring a bell; you give your name to a maid; and then you're taken in."

## SARAH ELLEN MORE

The funeral of Mrs. Sarah Ellen More took place Friday afternoon, Oct. 10th, at 2 o'clock from the Anglican Church.

Sarah Ellen More, wife of Algonquin More, came to Ottawa in 1884 from Manchester, England. She came west to Medicine Hat in 1898, and lived in Reservoir for the past five years. She was the mother of ten children, three of whom are dead; grandmother to 15 grandchildren, and had 5 great grandchildren.

Many sympathetic friends attended the funeral service, and there were a large number of floral tributes as follows: From Mr. Tom and Dorothy; The Family; the members of the Women's Auxiliary of the Church of England; Lily, Jack, and Quentin; L. A. M., Ethel, Will and Jack; Beth and Jim; Mr. and Mrs. Colby Rescor; Mr. and Mrs. Clara Wilsey; Jim, Max, Ed, and Children; Mr. and Mrs. W. A. Small and Reggie; Melvin and Edith; Douglas L. Frew.

The body was laid to rest in the Bassano Cemetery by the side of her husband who preceded her three years ago.

"Those who are gone leave. Those who departed loving you, love you still; and you love them always. They are not really gone—those dear hearts and true—they are only gone into the next room; and you will presently get up and follow them, and wonder how they will be closed upon you, and you will be no more sad."

—William Wakepeace Thackeray.

## Wheat Pool Notes

During the month of August, 1929, a total of 5,851 contracts were received in head office. This number of contracts involved a total of 475,704 acres of wheat, or an average for 27 working days during this period of 142 contracts and 16,465 acres per day. Since the issuing of the second series contract 10,894 new members have been added to the association. Deliveries to Alberta pool elevators reached a high water mark on Sept. 24th when over one million bushels of grain were reported.

British Columbia wheat growers are joining the Alberta Wheat Pool. They find it much to their advantage to do so.

Leighton McCarthy, K.C., a Toronto lawyer and financier, said in a speech delivered in Calgary that the wheat pool was Canada's largest commercial undertaking, and remarked that western farmers appear to be realising the advantages of "rice" organization.

The six leading pool elevators in the matter of handlings from the 1927 crop are: Vulcan 453,945 bus.; Carmichael 406,211 bus.; Warner 376,250 bus.; Coaldale 376,745 bus.; Provost 373,376 bus.; Bladnoch 330,804 bus.

## MUSIC REPORT

The 1929 scholarship was won by Phyllis Plummer. The award was made for obtaining distinction and the highest percentage in the June examinations.

A prize was awarded in each grade to the pupils who kept up their work best during the holidays. The prizes were awarded as follows: beginners, 1927, Dorothy Beecher; primary, Dorothea Hall; elementary, no award was made; high school, Phyllis Plummer and Helen Trevis equal; higher division, Gladys Forsythe.

The standing for September: Primary: 1 Dorothy Beecher; 2 Jean Johnston.

Elementary: 1 Dorothea Hall and Jeanne Gamble; 2 Gwen Stiles and Dorothea Johnston.

Lower division: 1 Archie Johnston; 2 Lois Arison.

Higher Division: 1 Phyllis Plummer; 2 Dorothy Margaret.

Intermediate: 1 Eleanor McElbow; 2 Gladys Forsythe.
